BIP22-006140 P Issued 6/23/2022 \$35,000.00 This permit application is for the installation of a portable modular therapy spa at our residence. The spa and equipment components will be delivered to our home and assembled on site. The spa measures 8' wide by 15' long and 4' high. The spa will be installed partially in ground on a 3 inch thick cement slab that is reinforced with rebar. The below ground depth is 32 inches, and the above ground height is 16 inches.

The spa will be powered, as per the manufacturer's specifications, by a dedicated 220v/30amp single-phase GFCI protected circuit breaker to be located in an existing electrical sub-panel. The spa installation will adhere to all electrical requirements outlined in the CCC Residential Pool and Spa Installation guidelines document (Rev Sept 2021).

The spa will include two Drowning Prevention Safety Features as required in Health and Safety Code 115922. The two safety features are an automatic safety pool cover and a swimming pool alarm.

This portable modular therapy spa installation does not require a Drainage Plan (see the provided Drainage Plan Questionnaire).

Additional information about this portable modular therapy spa are detailed in the schematic diagram provided by the spa's manufacturer and included as part of this application.
