

STRUCTURAL PEST CONTROL OPERATORS

California Food and Agriculture Code Section 15204 a. and 15204.5 a. require the annual registration of licensed structural pest control businesses with the Agricultural Commissioner of each county in which pest control work is performed.

If you intend to perform structural pest control in Contra Costa County, please fill out the appropriate County Agricultural Commissioner Registration form and return it to us along with a check written to **CCC Department of Agriculture** for **\$10.00 for Branch 2 and/or Branch 3** or **\$25.00 for Branch 1** businesses. When registering multiple branches, you may pay the higher of the two fees rather than adding the fees together. Please be sure to provide a valid email address, and accurate business registration and operator license numbers. Paperwork can be mailed to our office at:

Contra Costa County Department of Agriculture
2380 Bisso Lane, Suite A
Concord, CA 94520

In addition to registering, every pest control business must report monthly pesticide use, including negative use reports for months where no pesticide applications occur, by the 10th of the following month. The process has also been streamlined so that it is possible to input a unique structural stamp number on monthly use reports submitted online. Therefore, we strongly encourage all pest control businesses, whether they are located in or working here in Contra Costa County, to sign up for an online CalAgPermits account. Please email us at agcommissioner@ag.cccounty.us or contact our office at (925) 608-6600 for assistance in setting up your Contra Costa account or any other questions about pesticide use reporting.
