Written Questions: RFI #1705-223

1. I was looking over the new RFI a question. I know that it is asking for us to notate the RFI number. But, do you also want us to indicate which scope of work we are interested in? In other words. would you like for us to put the “Gender Responsive” title in our application scope of work, or will that matter?

On the RFI Cover Sheet there is a location to indicate each of three solicited services an agency may be providing their interest in. If the agency is expressing interest in more than one service, the accompanying statement of interest should be clear as to which service any particular section of that statement is in reference to.
