Introduction

The United States Census is a constitutional mandate and is one of the most important processes conducted every 10 years. The Census is the process of counting each person living in the United States and is organized by the U.S. Census Bureau.

Census data is used to allocate billions of dollars in federal funds to support our communities and determine political representation at all levels of government. It is also an opportunity for every individual in the United States to be counted and acknowledged in our communities.

Historically, people of color, immigrants, low-income communities, children, seniors and many others have been undercounted in the census. An undercount could result in a decrease in federal resources for our communities and congressional representation. California faces several challenges to a complete and accurate count. Some challenges include underfunding of the U.S. Census Bureau and the new online census questionnaire.

Contra Costa County's goal is to ensure that every person in the county is COUNTED.

To minimize the undercount in our region, Contra Costa County is seeking to fund organizations, coalitions, and collaborations that are committed to ensuring a complete count of County residents with an emphasis on Hard to Count (HTC) populations. Most grant amounts will range between \$500 and \$3,000, and in some cases, we may decide to grant a larger amount for projects that will have a far-reaching impact on census participation. If you have specific questions about the amount, please submit your inquiry to:

Matt.Lardner@cococensus.org.

Goal of the Outreach and Assistance Grant

The Goal of the Outreach and Assistance mini Grants is to increase the self-response rate in Contra Costa County, in particular within Hard to Count Communities.

Host an event to raise awareness and highlight the importance of the Census

Host a block party, barb-b-que, kids carnival, picnic, cultural events or other gathering to bring people together to learn about the importance of the Census. Promote, outreach, and educate to targeted HTC populations to increase participation in the 2020 Census. Promote Census awareness in non-English languages. In particular, the County is seeking the following

languages: Spanish, Tagalog, Chinese (simplified), Cantonese, Mandarin, Vietnamese, Farsi, and Korean. Do you have an innovative idea to get the word out about the Census? In particular, an activity or event that will engage HTC populations? We want to hear about your idea(s)!
